## SOLUTIONS

1. Listen to the text. How do these animals prepare for winter? *Bats, bears, geese, groundhogs, hedgehogs, ladybirds, Monarch butterflies, squirrels, whales.*

Migrate	Eat and store	Hibernate
geese	squirrels	bats
Monarch butterflies		bears
whales		groundhogs
		hedgehogs
		ladybirds

2. Match A and B. Listen to the last part and check.

3. Fill in the correct preposition: *from, for, in (5x), to.*

- Animals start preparing **for** winter **in** the autumn.
- Some animals migrate – they move **to** warmer places.
- Geese travel **in** large V-shaped groups.
- Some animals eat a lot and hide food to eat **in** winter.
- The fat protects them **from** the cold.
- Ladybirds sleep **in** groups.
- There can be hundreds **in** one group.

4. Put the words in the correct order and make questions.

- animals / When / do / start / for / preparing / winter ? **When do animals start preparing for winter?**
- do / Where / move / animals / to ? **Where do animals move to?**
- winter / What / do / in / ladybirds / do ? **What do ladybirds do in winter?**
- Where / food / store / do / squirrels ? **Where do squirrels store food?**
