

Fascinating Facts about Animals, pp 14, 15

Jump, June 2020

download free at www.gradus.cz

1. Match A to B. Then circle all the birds (in English).

A	B	A	B
beaver	žirafa	moose	žába
grasshopper	hlemýžď	frog	lenochod
shark	havran	rhino	nosorožec
giraffe	žralok	fly	kráva
raven	kobylka	sloth	los
snail	sova	cow	krokodýl
swift	bobr	penguin	moucha
owl	rorýs	crocodile	tučňák

2. Listen to the first part and fill in the missing numbers.

All animals are interesting, but some are fascinating! Look at these facts:

Have

Owls have _____ eyelids on each eye: _____ for cleaning the eye, _____ for sleeping and _____ for blinking.

Beavers have orange teeth.

Grasshoppers have _____ eyes: a big one on each side and _____ small ones between the big eyes.

Sharks have up to _____ teeth during their life.

Koalas have _____ thumbs on each paw.

3. Fill in the missing animals.

_____ can lick their ears.

_____ can speak like parrots.

_____ can sleep up to three years.

_____ can fly up to ten months non-stop.

_____ can sleep standing up.

_____ can live up to three years without eating.

_____ can feel flies on their antlers.

Some _____ can freeze for the winter.

SOLUTIONS

1. Match A to B. Then circle all the birds (in English).

A	B	A	B
beaver	žirafa	moose	žába
grasshopper	hlemýžď	frog	lenochod
shark	havran	rhino	nosorožec
giraffe	žralok	fly	kráva
raven	kobylka	sloth	los
snail	sova	cow	krokodýl
swift	bobr	penguin	moucha
owl	rorýs	crocodile	tučňák

2. Listen to the first part and fill in the missing numbers.

All animals are interesting, but some are fascinating! Look at these facts:

Have

Owls have **three** eyelids on each eye: **one** for cleaning the eye, **one** for sleeping and **one** for blinking.
