

half a
CROSSWORD

CROSSWORD

For teachers:

Students have to complete the crossword by working with a partner. They take it in turns to explain their words which their partner must guess. They are not allowed to say the actual word.

Make sure students are able to say, e.g.:

What's number 1? (Answer: It's the opposite of open.)

How do you spell that? Can you say that again? Let's move on.
